Sourced from Nantoux above Pommard in the lieux-dits 'Sous la Roche' and 'En le Bois Guillemain', this is partly tank-fermented and partly fermented in one old 500-litre cask to maintain freshness. The result is pleasantly lemony but not at all thin; there is a marvellous balance here making this a delightful wine for early drinking.

Chartron has a magnificent holding of 12 ouvrées (0.47 hectares) at the northern end of Chevalier-Montrachet called the Clos des Chevaliers, en rely enclosed by walls. Half of the vineyard was planted right after WWII. The 2019 vintage is rive ng. The aromas range from green apple to chamomile, butter, and hazelnut. The wine has the power of Bâtard, but with more finesse and an almost Montrachet-like length. Top-level stuff, this should age for decades.
